

U.S. PEST GERMAN ROACH PREPARATION FOR HOMEOWNER

- **Homeowner:** Please check next to each statement that you understand the preparation of each treatment.
- **Pest Professional doing the treatment:** Please initial next to each statement that these actions were completed at time of service.

Sanitation is critical in ROACH CONTROL. It is the homeowner's or business owner's responsibility for making sure *Sanitation* is done.

Below you will find the steps necessary for you to follow before a roach cleanout is performed:

- ____ People and pets must leave the premises for 4 hours once the treatment begins.
- ____ Clean areas beneath cabinets, sinks, stoves, refrigerators, etc.
- ____ Clean and remove all items stored in cabinets, pantries, and storage bins in the kitchen and bathrooms. (You may place these items on a table and cover with plastic).
- ____ Vacuum all areas as you remove the items. This will eliminate roach feces and egg casings.
- ____ Unload the dishwasher.
- ____ Take everything off stove top and top of refrigerator.
- ____ Remove pet food dishes and food.
- ____ Take all garbage outdoors away from structure.
- ____ Clear all counter tops.
- ____ Fish tanks should be covered with a damp towel with filter and pump disconnected.
- ____ Do not apply any store bought pesticides. (after treatment has been done)

- **BE SURE TO FOLLOW U.S. PEST'S INSTRUCTIONS. SUCCESS DEPENDS ON YOU AND YOUR WILLINGNESS TO COOPERATE AND FOLLOW DIRECTIONS. YOU CANNOT BE TOO THOROUGH. THE PROCESS CAN BE FRUSTRATING AND TEDIOUS TO PREPARE. HOWEVER, IT IS BEST TO DO IT RIGHT THE FIRST TIME AND AVOID REPEATING THE PROCESS. THE CONTROL OF GERMAN ROACHES CAN ONLY BE ACCOMPLISHED WHEN THE CUSTOMER AND U.S. PEST PROFESSIONAL WORK IN TANDEM TO ADDRESS ALL SITUATIONS.**
